This month sees a very exciting launch for Harrods, when Youth Corridor by Dr. Gerald Imber finally becomes available in the UK.

He may not be a household name, but Dr Gerald Imber is already well known to many of the world's most beautiful and famous faces. Renowned within the plastic surgery industry, he is known for his minimally invasive surgery techniques, and ultra natural results. Preferring a fully, non-invasive surgery technique here at StyleNest, we were excited to see what a famed and respected plastic surgeon has brought to a skincare range.

Following his philosophy of Prevention, to Maintenance, to Correction, Youth Corridor is a complete range of products to cater for all skin concerns. The 8 piece range includes a whole arsenal of anti-ageing weapons, with Ingredients that are potent, but also gentle enough for even sensitive skin. With anti inflammatory ingredients such as aloe vera, and nourishing and hydrating natural oils and butters such as cocoa and shea butter, and olive and soybean oil, the range nourishes the skin, but as you would expect from an anti ageing range all products are also packed full of antioxidants. Combine this with B vitamins, anti-ageing vitamins C and E, and a patented retinoid derivative, the range has been designed to not only prevent further damage but also reduces and smooth any existing fine lines and wrinkles.

Including hydrating and nourishing creams, a specific eye and neck repair creme, and the impressive sounding Retinultimate Transforming Gel, the range covers everyday beauty needs as well as more intense skin treats such as masks and antioxidant serums to give skin an extra anti-ageing boost. StyleNest particularly loved the exfoliating Youth Corridor by Dr. Gerald Imber Revitalising Beta Hydroxy Mask, with an anti inflammatory formula that includes alpha and beta hydroxy acids to slough off dead skin, it left our skin instantly and impressively smoother to the touch. And even better, there's no need for the surgery!

Youth Corridor is available now exclusively at Harrods starting from £65
